MARGARET HUMPHREY Access to HE – Medicine

"The course at CWA has an excellent reputation with many medical schools. I wanted to have a solid understanding of the science underpinning the degree syllabus, and as the course curriculum was influenced by the schools themselves, I knew I would be fully prepared. My time at CWA introduced me to a network of pre-medical students and experienced teachers, who have continued to offer me support and advice. I am now studying the Graduate-Entry Medicine Course at Cambridge University."

HIGHER EDUCATION at UcWA

University Centre West Anglia is a partnership between the College of West Anglia (CWA) and Anglia Ruskin University (ARU), offering higher education programmes.

ANDREA BHOGALL

BSc Chartered Manager Degree Apprenticeship – Level 6

“Returning to learning has been a challenge. However, with some good planning and support from my tutor, this has been achievable. I have really enjoyed the programme and would recommend it to others thinking about embarking on a programme of study. If you are thinking of studying a degree apprenticeship, this is a great opportunity!”

BEN WEBB

“Before starting my degree, I studied Access to Higher Education – Business. AMANDA HUGHES
Equine Management (Level 3)

“When I started the course, I wanted to know enough about horses to own one. I had no career aspirations at all. I never thought I would be applying to uni 3 years down the line! I enjoyed every aspect of being a student and I found each subject fascinating and interesting. Without CWA, I never would have had the self-belief to work in an equine environment. I never would have had the self-belief to apply to university. College has given me so many options for my future which wouldn't exist without the staff at CWA.”
